

Security Fund-Raising Campaign - Church Surveillance System • Security Cameras • Lighting

Feb. 10, 2012

It would be nice to think that video surveillance systems are not needed for churches, but unfortunately these sacred places are not exempt from individuals who will steal from them, vandalize them and to emphasize in particular most recently in our Narthex, a brutal and vicious assault and robbery occurred to one of our elderly parishioners. It was unthinkable that this shocking incident could have happened here at St. Mary's, but it did! We must prevent this from happening again.

It has sadly become impossible to leave our church unprotected. Just like any other establishment, we need to protect ourselves from thieves and vandals and one of the best ways to help secure our place of worship is to install a good quality high tech surveillance system with indoor and outdoor security cameras and monitors, as well as a surveillance DVR (Digital Video Recorder) supplemented with additional exterior lighting.

This security system comes at a substantial estimated cost of \$3,500.00 to \$4,500.00. We ask all to contribute towards this worthwhile capital project. Our financial support will make a difference person to person.

Fr. Petro
